

CoolitArt

Food Art

So this is one occasion you can play with your food!
Explore the rainbow of colours different fruit and vegetables can offer!

Tools and Materials:

- Food, sliced, diced and made into batons (this is all we had in the fridge and cupboards but get creative!)
- Kitchen Foil

Firstly rip off a bit of kitchen foil to form the “canvas” for your food art to rest on and start planning out what you are going to do - there are no scissors or knives required as you can use your teeth which is faster, safer and tastier!

This is a fantastic opportunity to try different fruit and vegetables, fresh, dried or even tinned. All we ask is when making your food art make sure you eat the materials you use!

Here are some more food art pictures made to inspire you!
