

DIY Spirograph

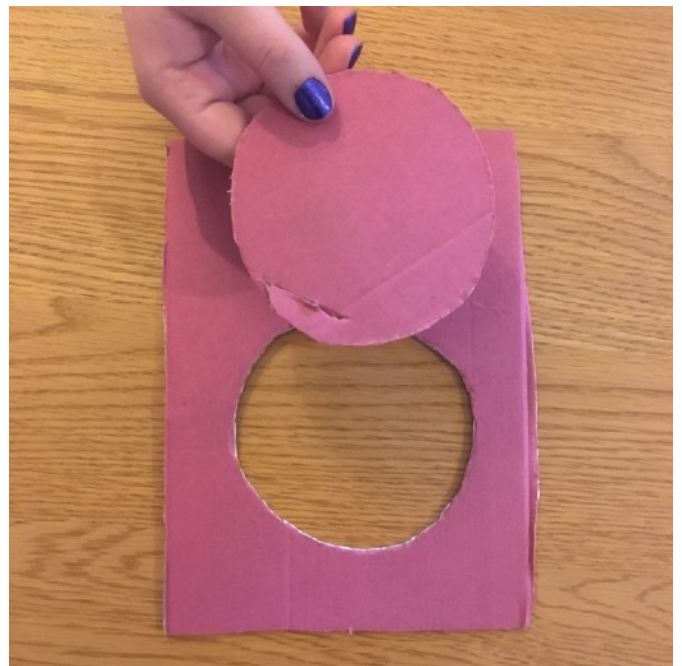

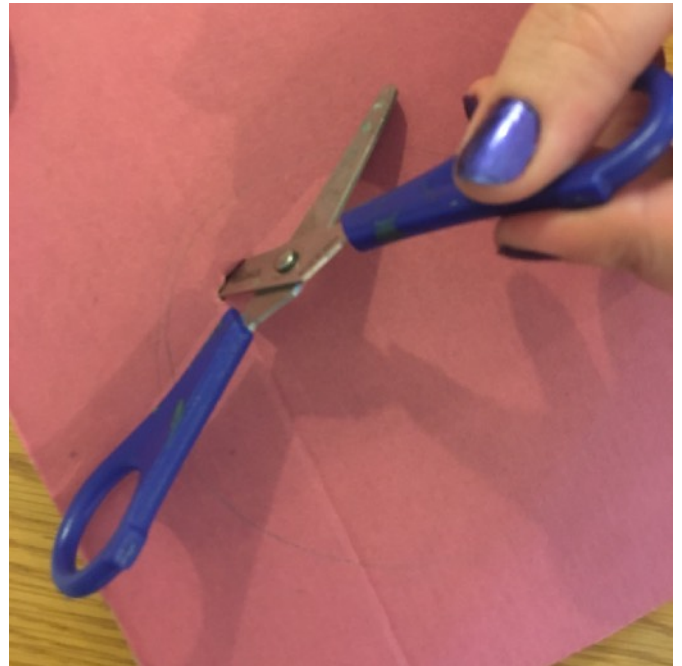

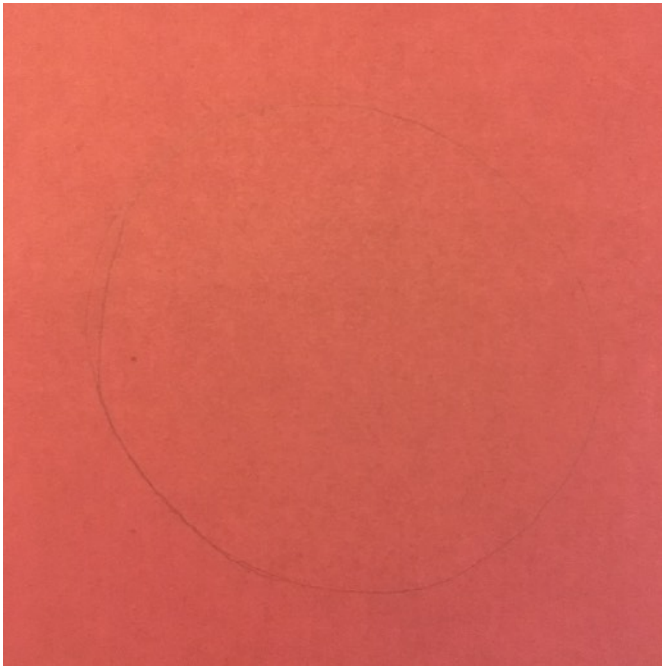

Celebrating Halloween why not create your own Spooky Silhouette of a Horrible Haunted House!

Tools and Materials:

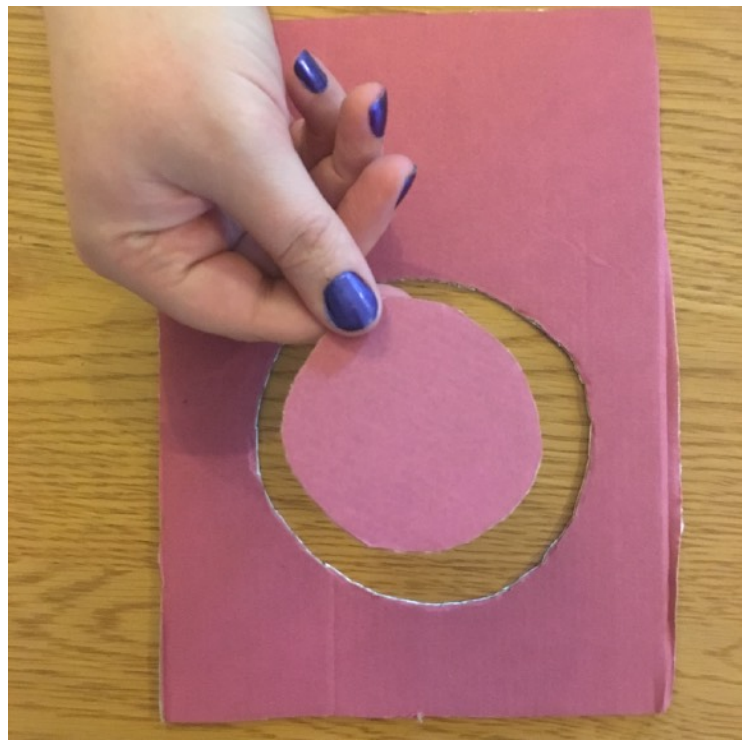

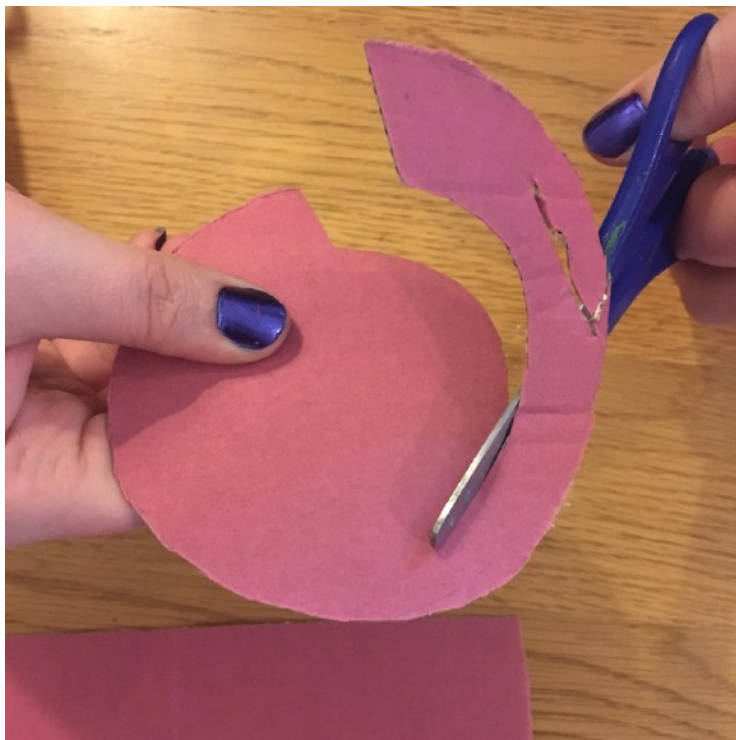

- Card (cereal box etc)
- Pencil
- Felt Tips
- Scissors
- Masking Tape
- Paper

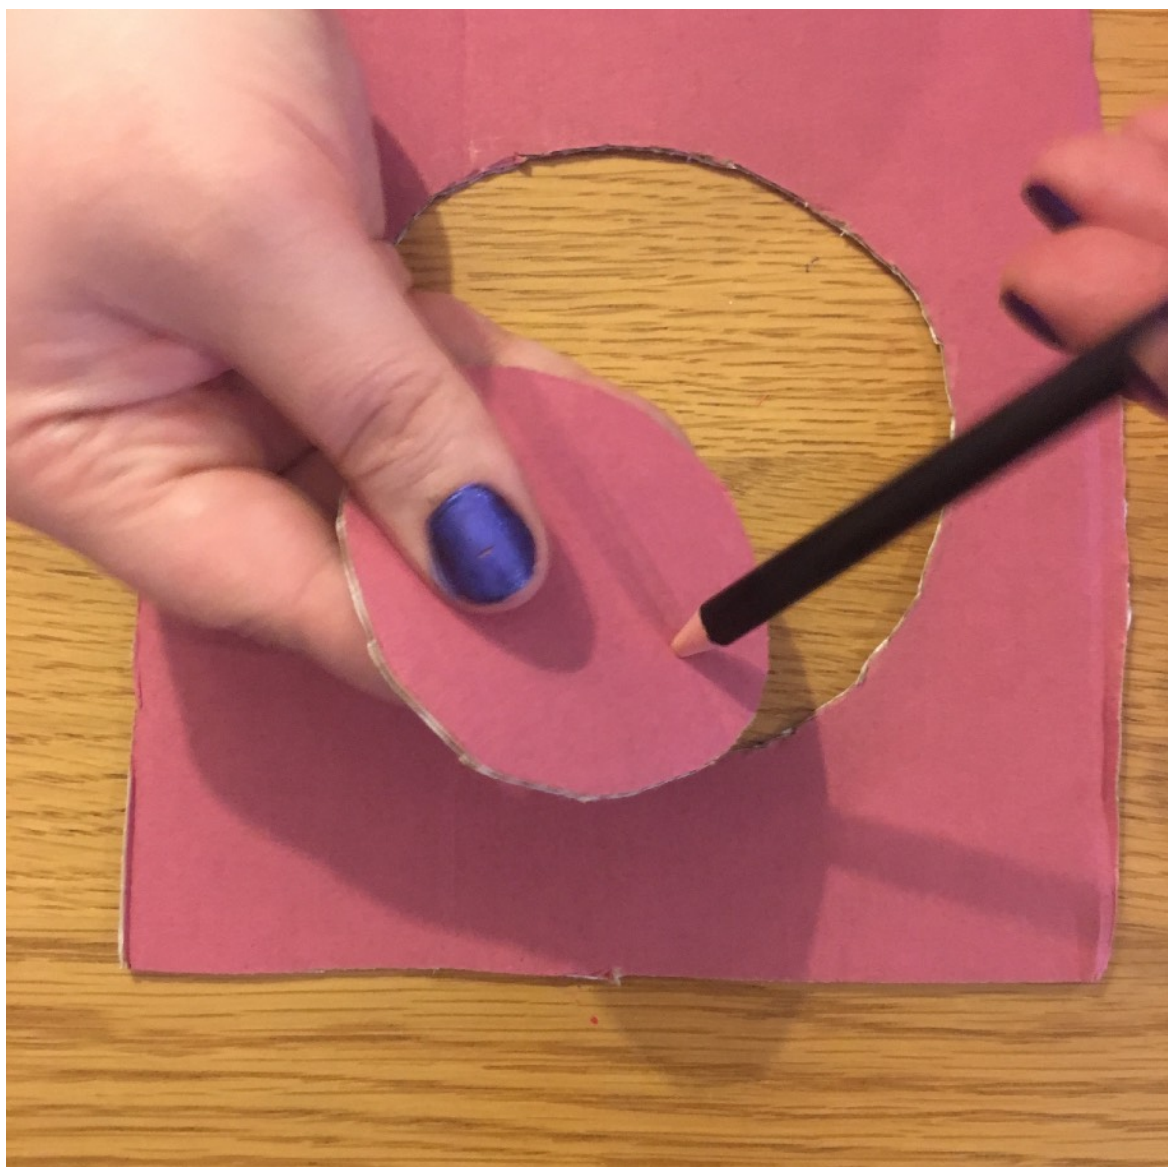

Taking your piece of card draw a circle on it to cut out - this will form your spirograph. Be careful when cutting out the circle because you need it for later!

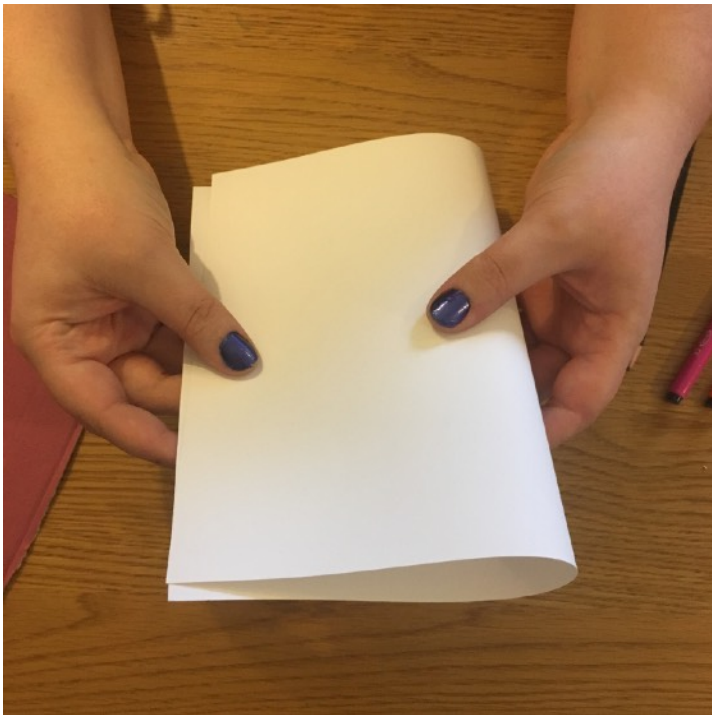

You want to cut the the circle from the middle slightly smaller so it can go around in the larger circle to create your designs so start trimming it down like so

Using your pencil poke some holes in your smaller circle

Now take your paper fold it in half to fit under your cardboard - use the masking tape to secure the card and paper to the table

Use the smaller circle to go round in the larger circle - rotating all the way around the circle to create different paths - you might need to assist the circle with your hand

There you have it your very own DIY Spirograph!
