

Paper Poinsettia Wreaths

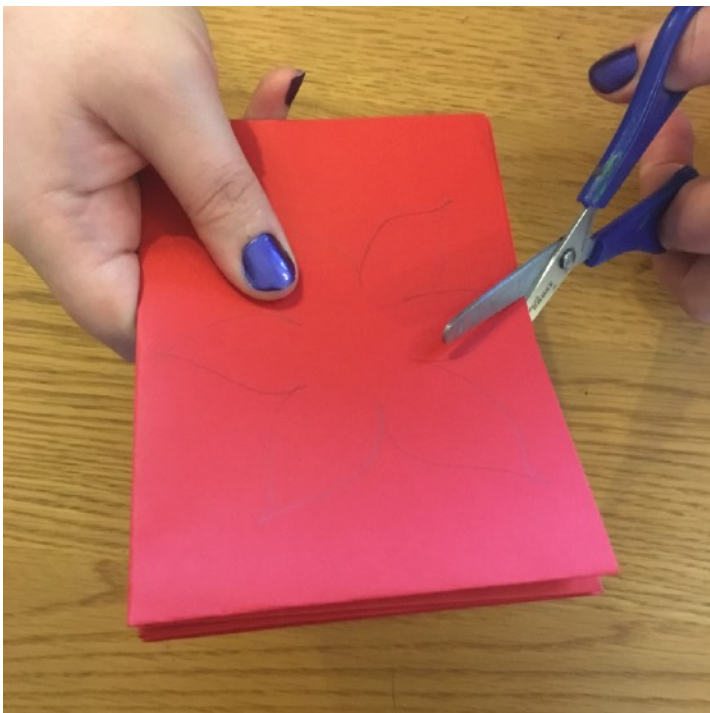

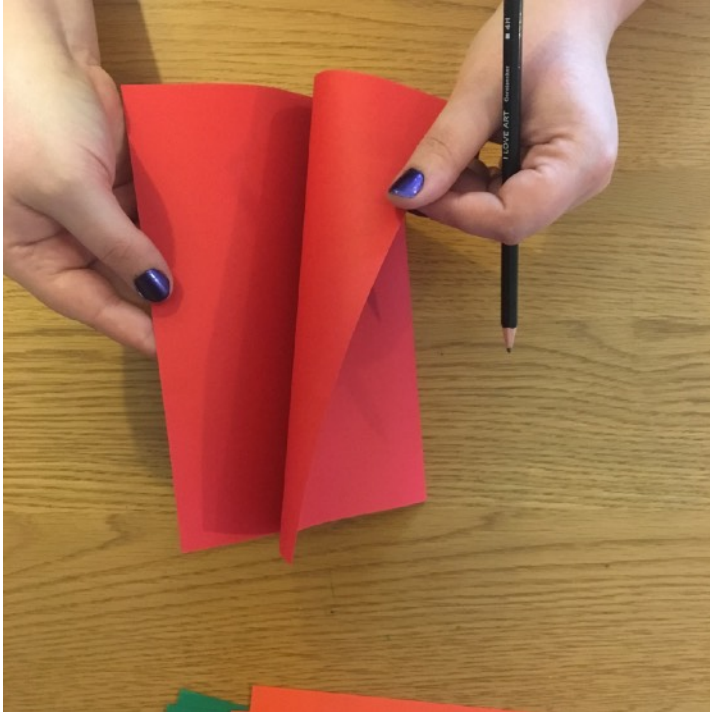

Getting into the Christmas spirit why not craft your own paper poinsettia wreath to adorn the door or wall to inject some Christmas cheer!

Tools and Materials:

- Coloured Paper (red, orange, yellow & green)
- Pencil
- Glue Stick
- Scissors

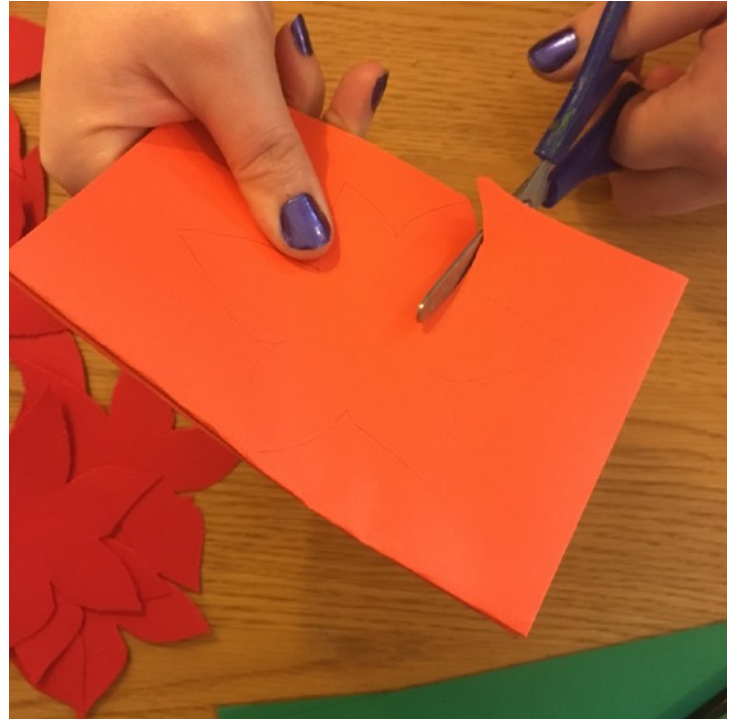

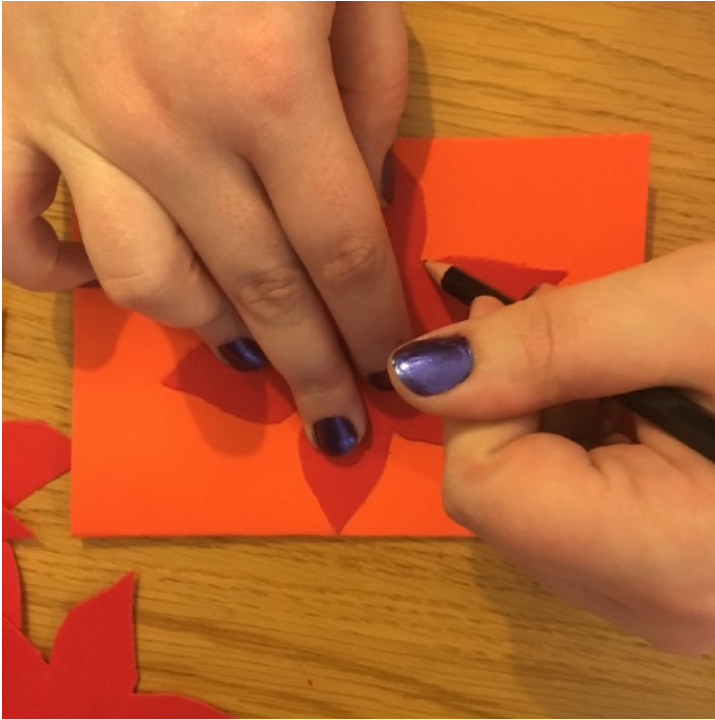

First of all we need to create our poinsettias - fold your red paper into four, half and half again and draw a flower (this way you can cut out 4 at the same time!)

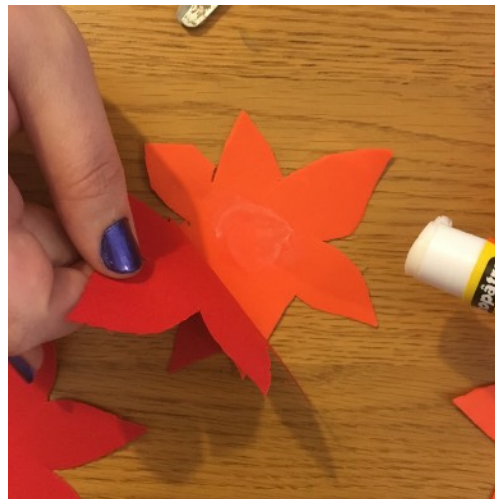

Do this twice so you end up with 8 flowers in total

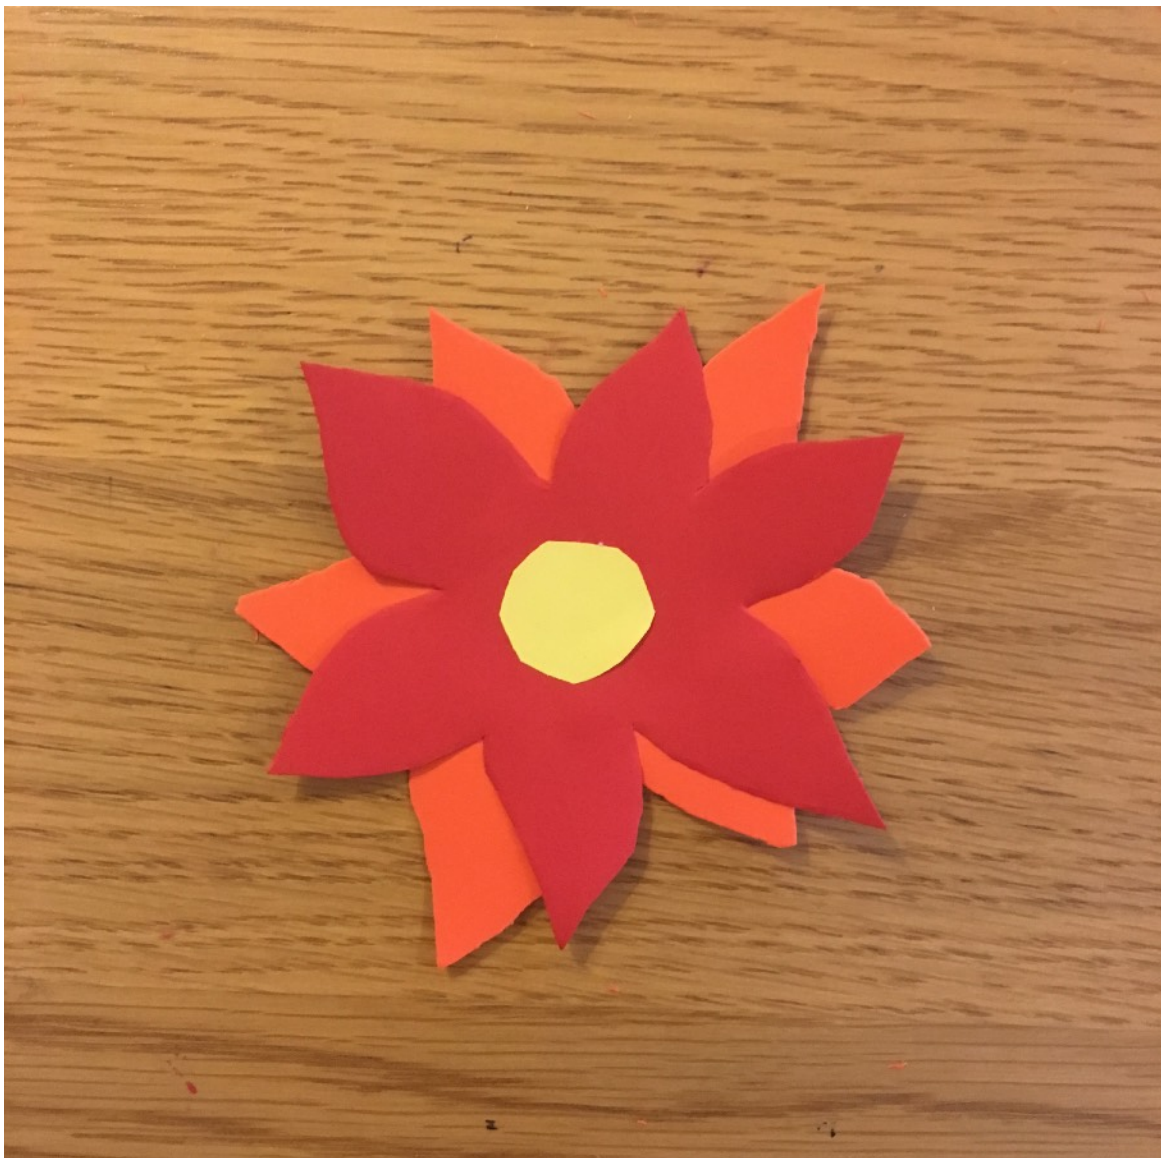

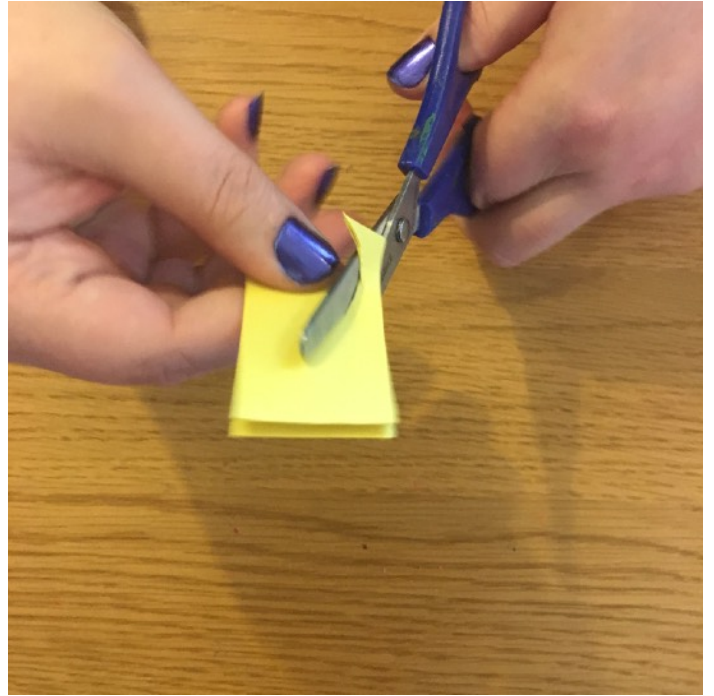

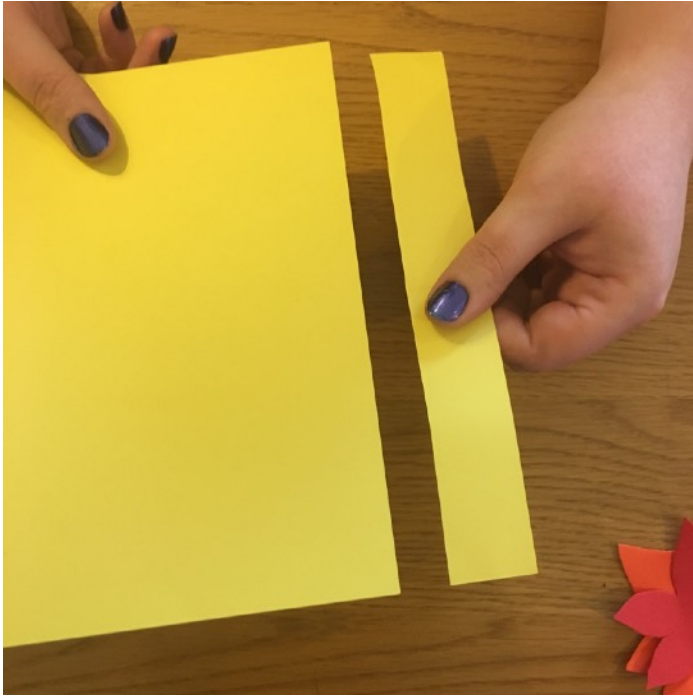

Repeat with the orange paper - you can use one of the red flowers as a template to draw round

Take your red and orange flower and stick them together slightly twisted apart so both colours show like so

Take your yellow paper to create the middle of the flower - cut a strip fold it 2 times to create 4 bits of paper and cut a 2 circles from each (8 in total) to stick in the middle like so

Lay your flowers out to form a circle then take your green paper to form leaves to join them together (sticking them on the back for neatness)

There you have it your very own Paper Poinsettia Wreath!
