

Pine Cone Pal

Taking inspiration from the Natural World and thinking about unusual surfaces to paint on - why not transform one into a woodland creature!

Tools and Materials:

- Paper/Newspaper to protect the table
- Paintbrush
- Pine Cone
- Paint
- Water Pot

So firstly what kind of animal do you want to create? What type of animals live in a forest? We thought a fox would be fun - whilst you could find them in the countryside you can find them in London too! Start with the lighter colours first

And there you have it your very own “Pine Cone Pal”
