

## Friendship Kit

Celebrating International Friendship Day on the 30th July why not create your own "Friendship Kit"

### Tools and Materials:

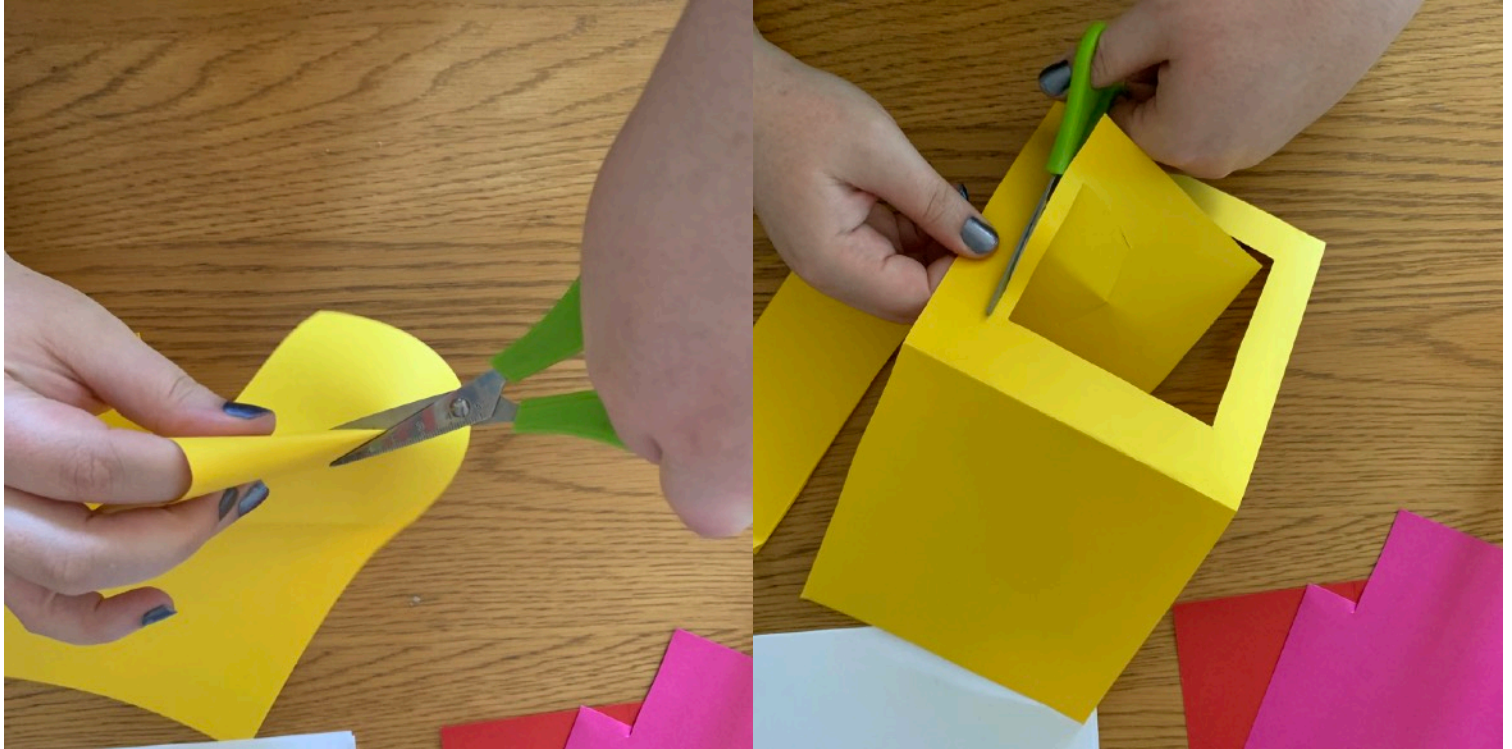

- Coloured Paper
- White A4 Paper
- White A3 Paper
- Gluestick
- Scissors
- Sellotape
- Felt Tips

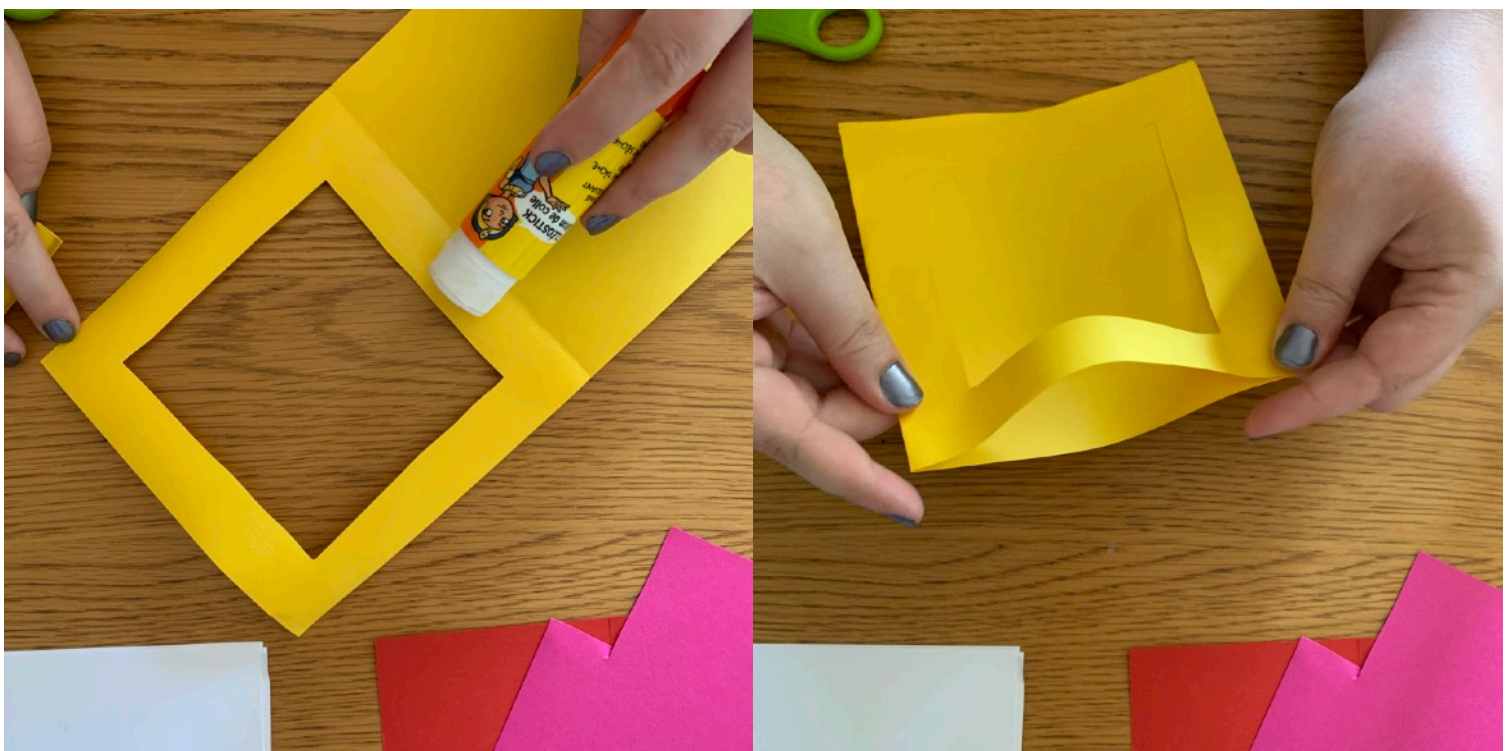

With this kit you can create a photo frame, friendship “membership” card, friendship greeting card, notes of gratitude and an envelope to keep them all in! Lets start with our photo frame, take an A4 pieces of coloured paper and fold it in half like a card and then square it off to make the frame but keep the bit you cut off to make it stand

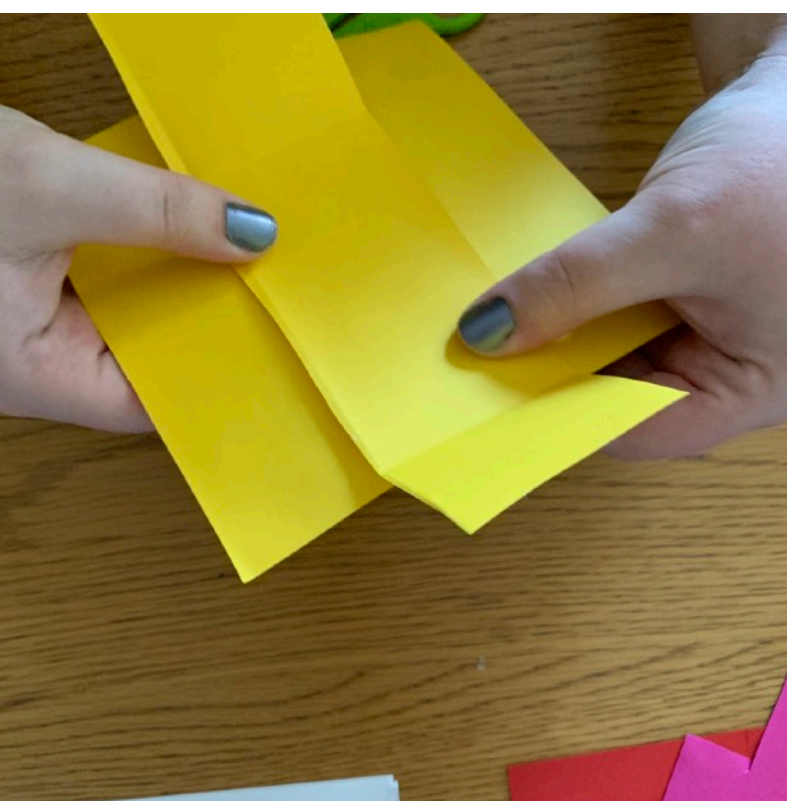

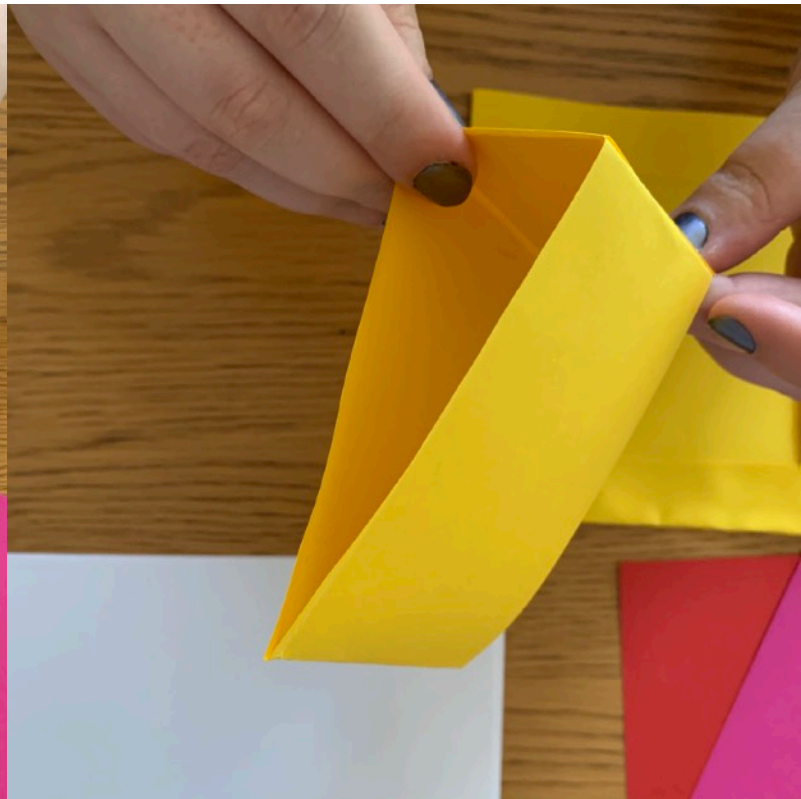

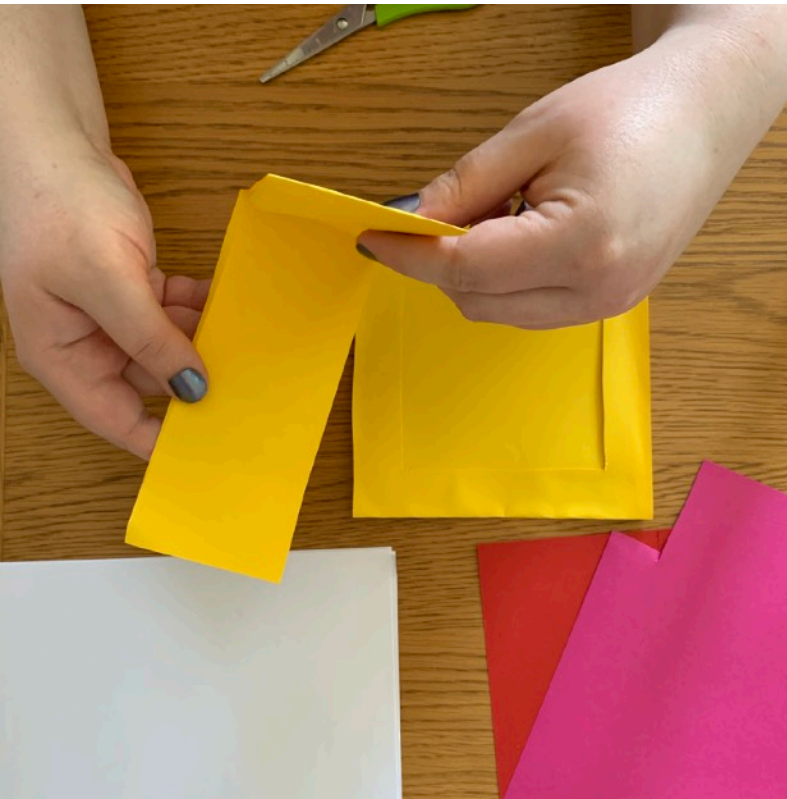

Keeping the rectangle to one side now you need to make a window in one side of the folded square. Open the paper and bend it to cut a slit in the middle so you can then cut a larger shape out like so

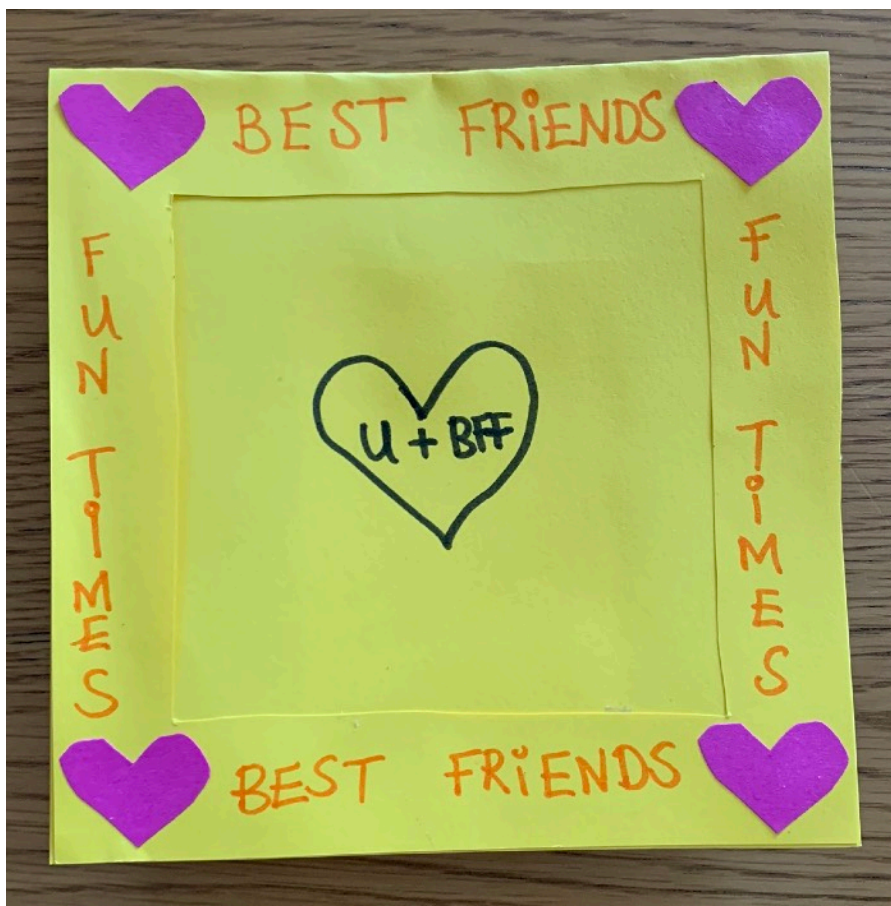

Once you are happy glue 2 out of the 3 loose sides down - you need to leave one open so you can slide a photo in!

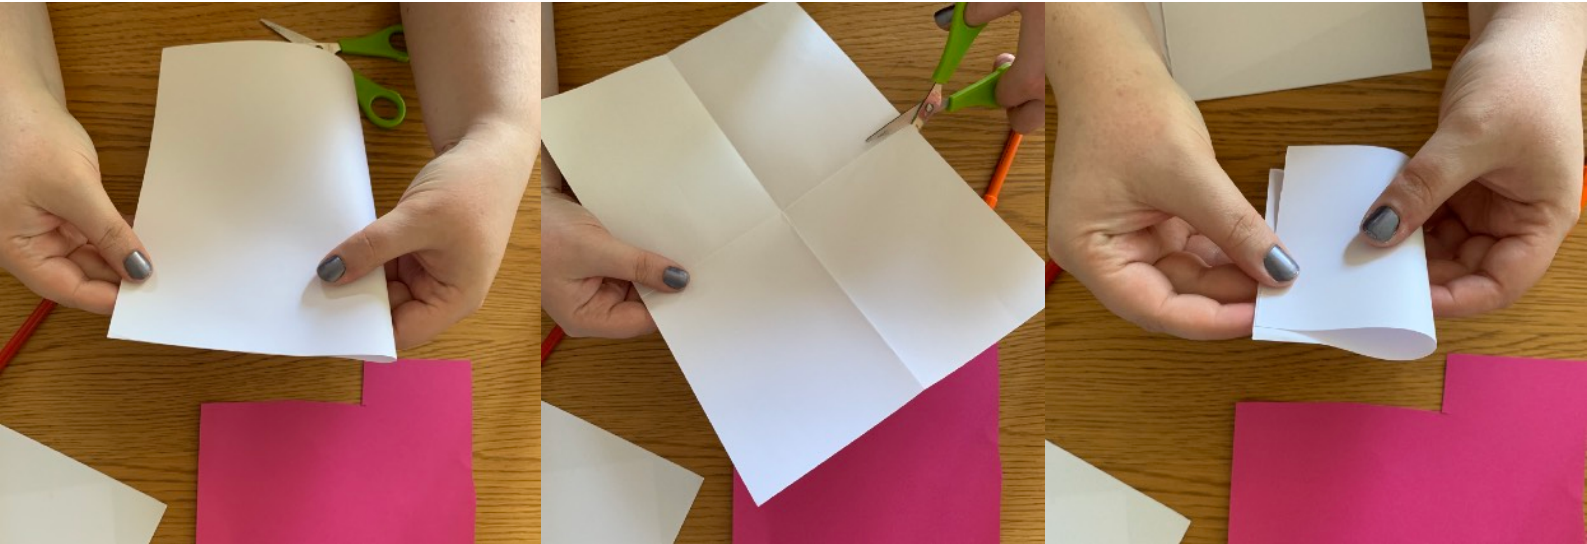

Now to create the stand at the back so your photo frame will stand by itself. Fold a square near the bottom so that when you open it it create a triangle, glue one of the longer rectangle bits to the back so you can move the lose bits to balance when you want it to stand like so

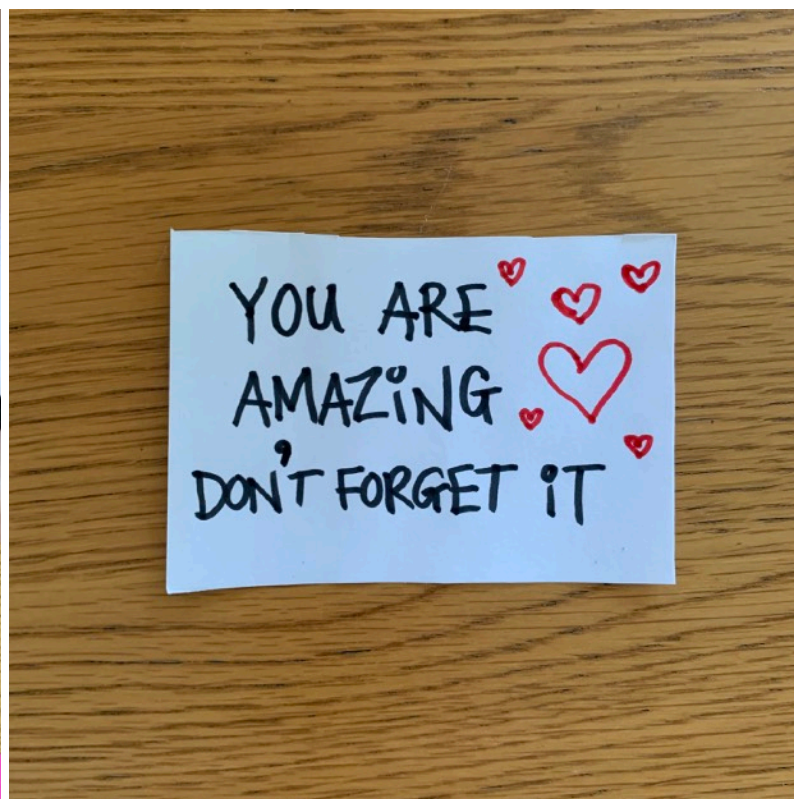

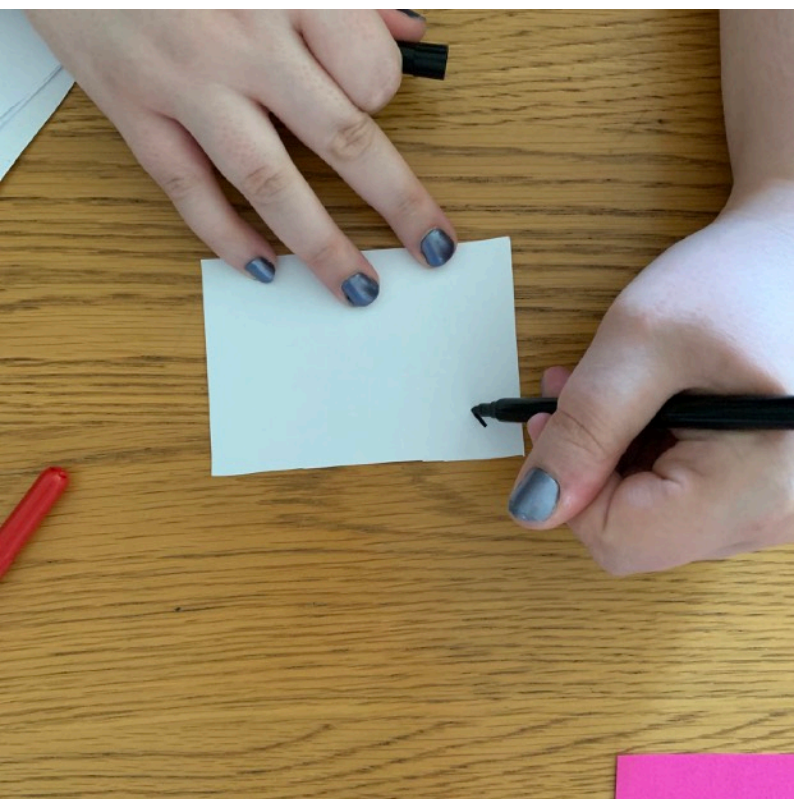

Now the structure is done, and its flat pack so you can keep it in the envelope or make it stand when you want to you can decorate it with words and cutouts like so

Now to make the positive affirmations - take your A4 white paper fold it in half, fold in half again to create quarters, cut them along the line and then fold those 4 bits of paper in to make 8 bits of paper. Keep on of the 4 bits of paper for your card later!

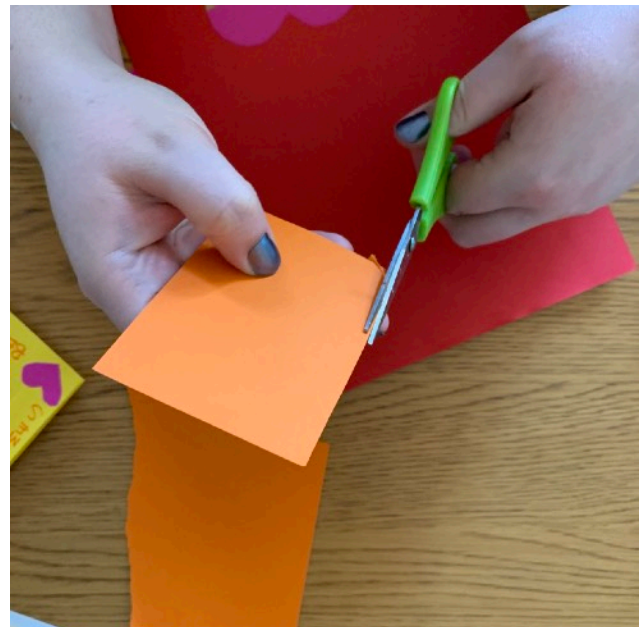

Have a think about what you can write to give your friend then start writing and then decorating as you like

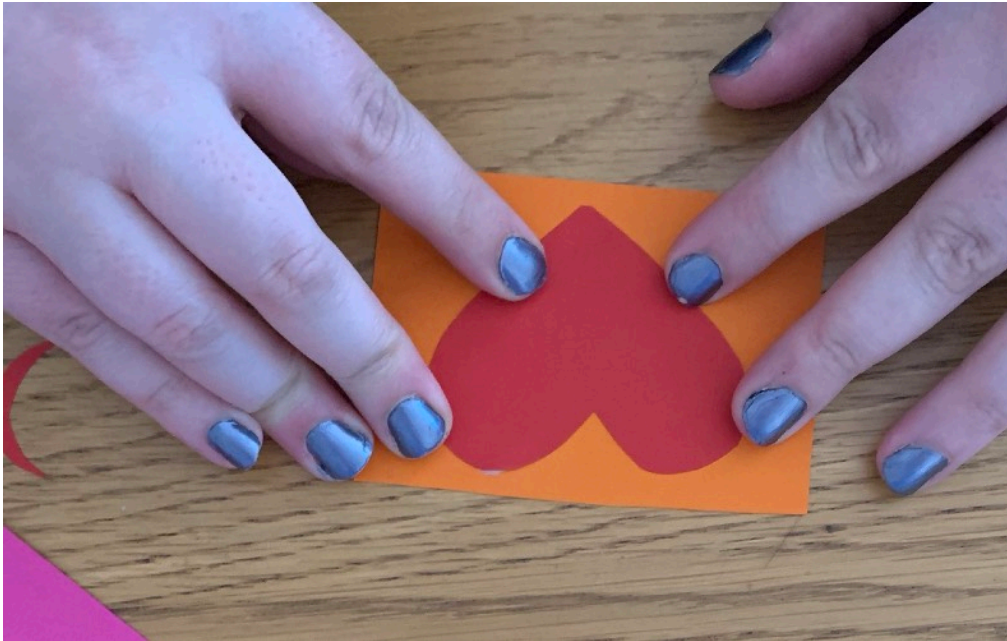

There you have it - your notes of gratitude!

Now to make your friendship “membership” card, choose what colour card you want and cut it into a bank card shape - roughly 8.5x5.5cm but any membership card you could draw around if you want it to fit in a wallet or purse

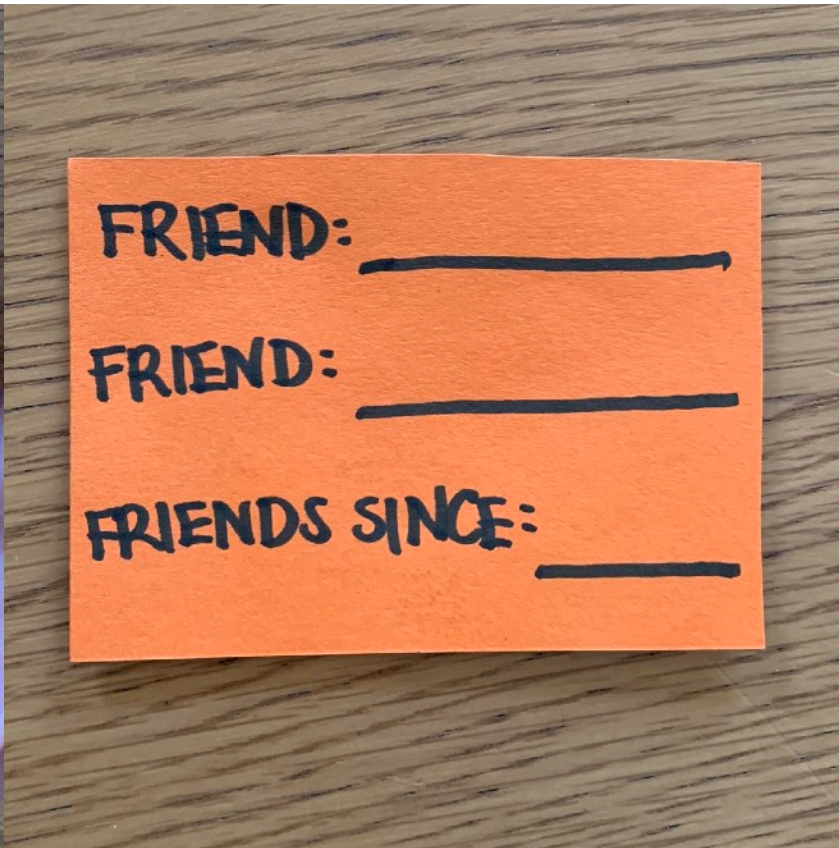

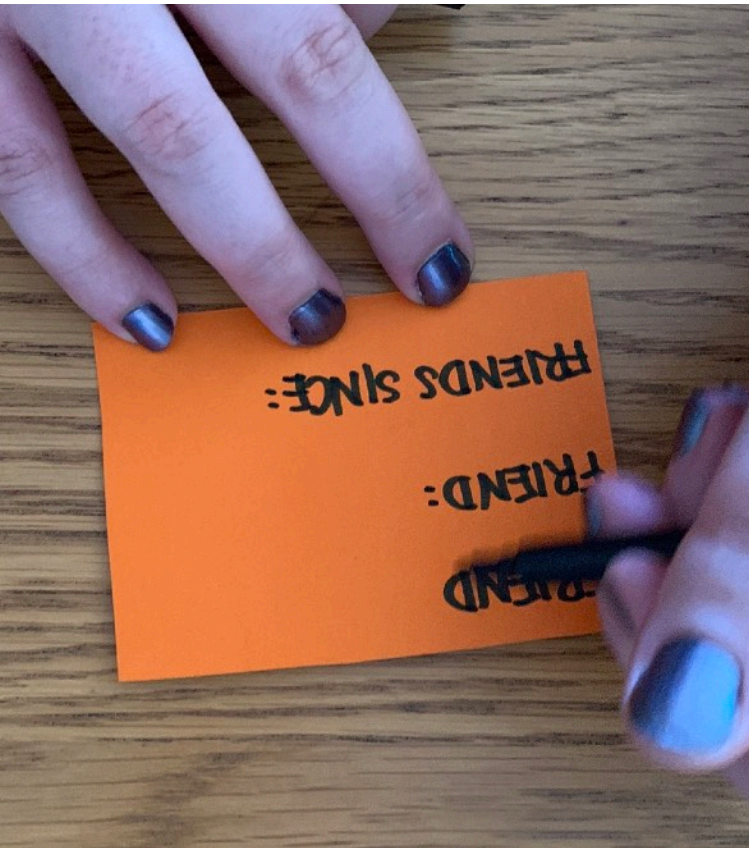

Once you have cut out the card you can cut out a “logo” to decorate it like so

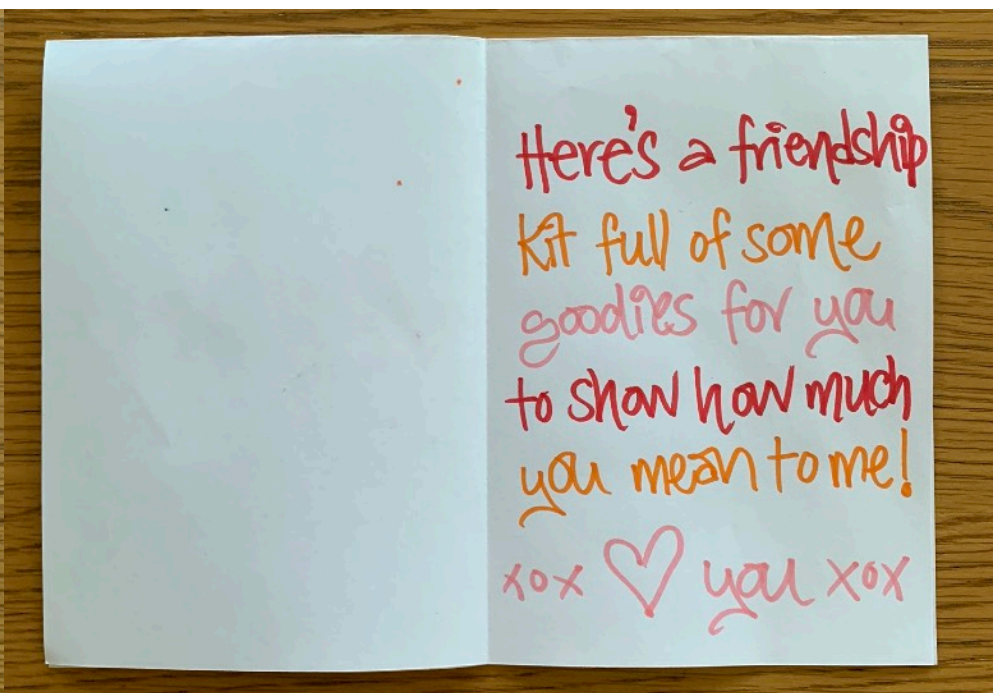

Glue any bits you've cut out to decorate it on to the card

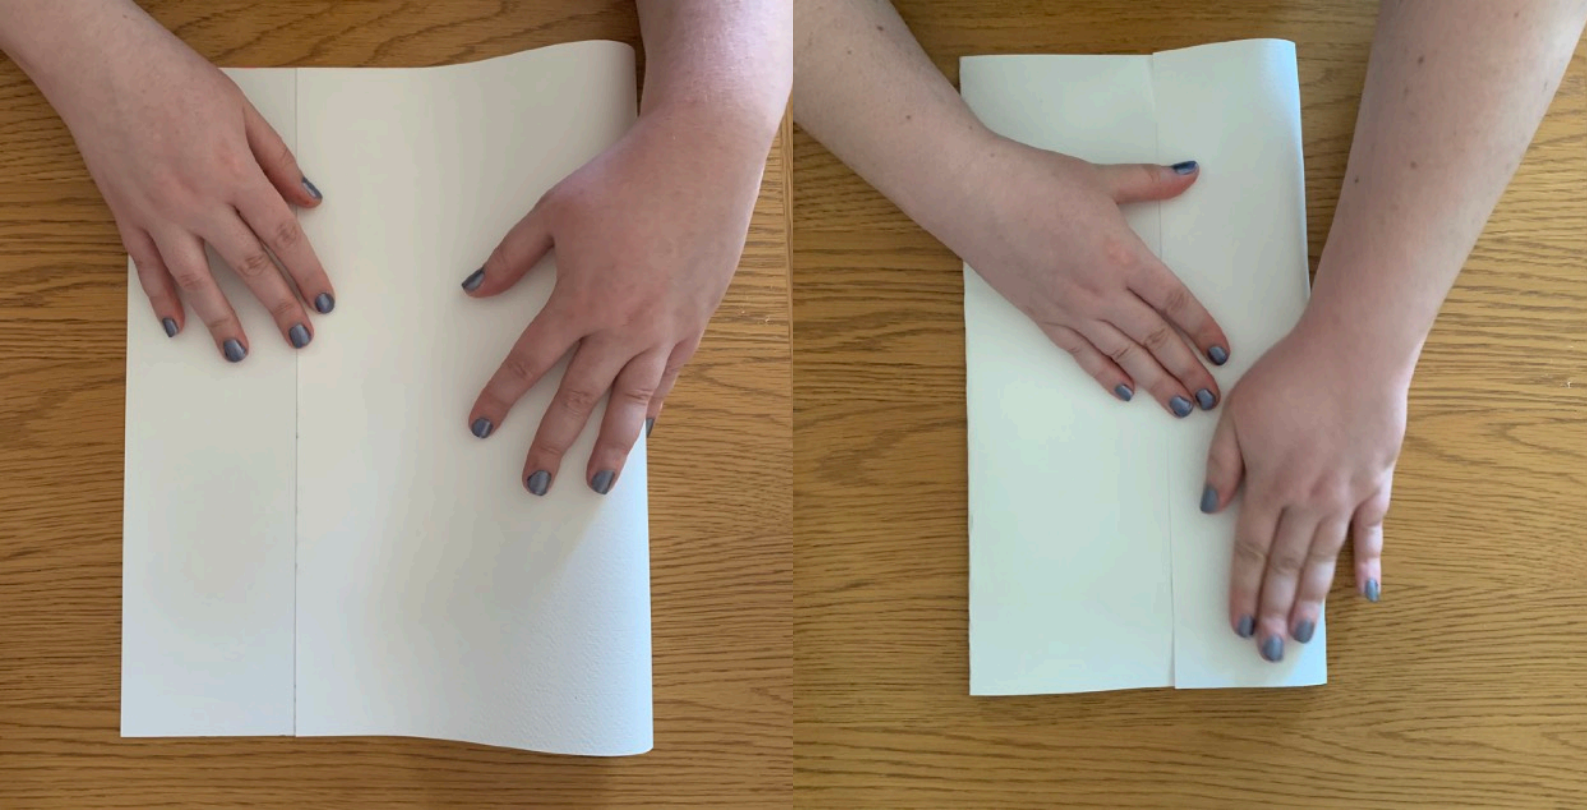

Once you are happy with the decoration flip it over and create the info to be filled in like so

So the last thing to make is a greeting card for your friend to accompany all the gifts in the kit - the piece of paper leftover from the notes of gratitude you can decorate now

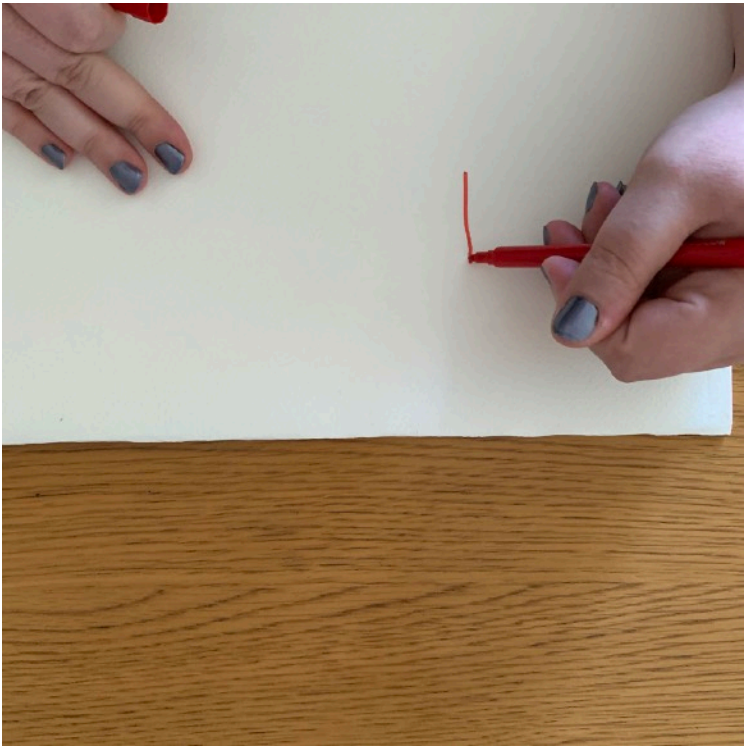

Now to make the envelope - take the A3 bit of paper and fold it like so not quite half a bit less to create body of envelope and the flap

Sellotape the sides to make it secure like so

Lastly decorate it and put all the goodies inside!

There you have it you're very own "Friendship Kit"!

THANK YOU  
FOR BEING  
YOU!

I LOVE  
LAUGHING  
WITH YOU

YOU ARE  
AMAZING  
DON'T FORGET IT

HEY  
BESTIE!  
JUST A LITTLE  
CARD TO BRIGHTEN  
YOUR DAY!!

THANK YOU  
FOR MAKING  
ME SMILE!

BFF

BEST FRIENDS  
FUN TIMES  
FUN TIMES  
BEST FRIENDS  
U + BFF

BESTIE

I ENJOY ALL  
THE FUN WE  
HAVE TOGETHER

HOPE YOU HAVE  
A FANTASTIC  
DAY - YOU  
DESERVE IT!
