

## Circle Cues

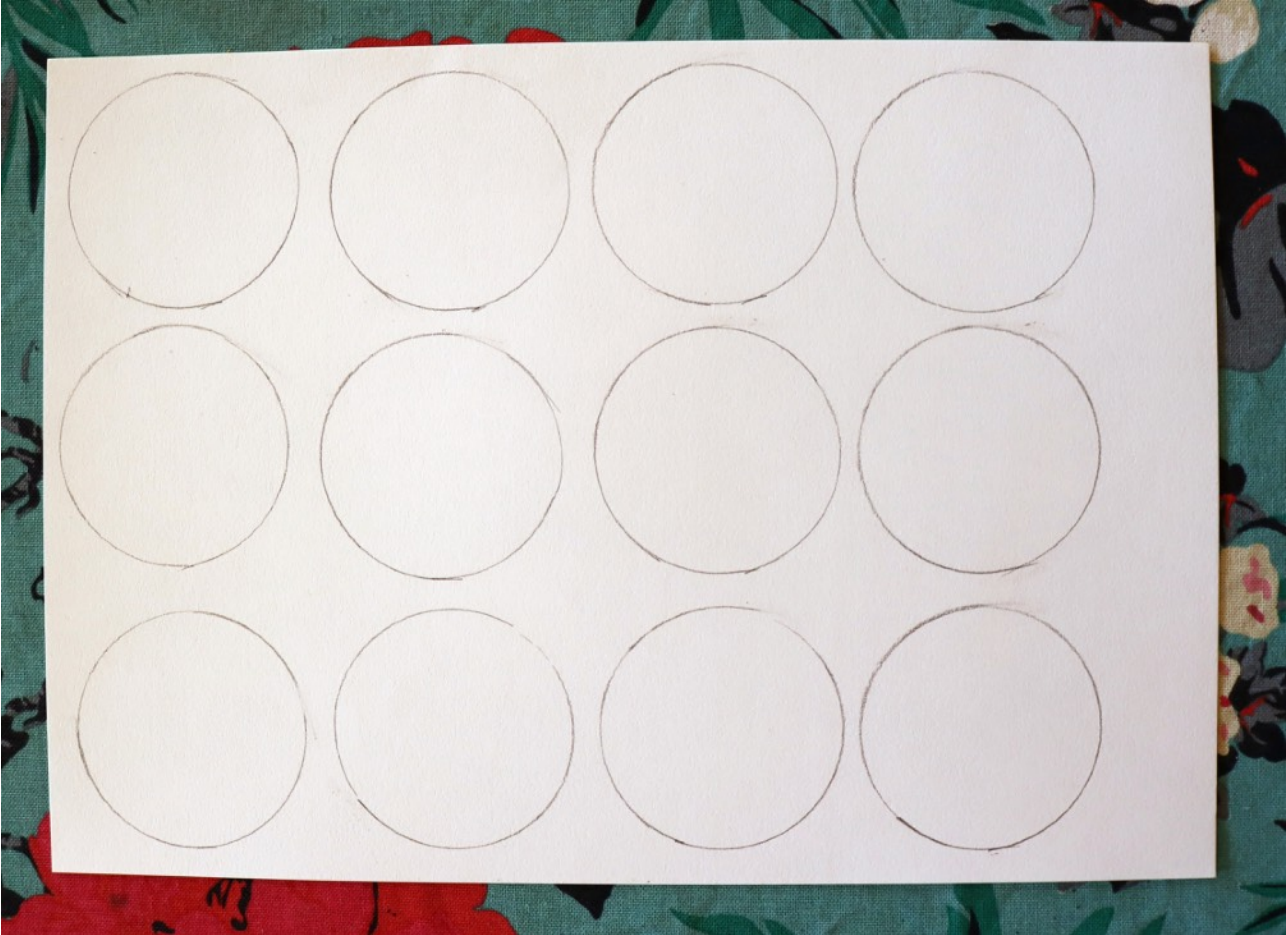

Using a simple circle as a prompt why not create your own circled centred artwork

Tools and Materials:

- White Paper
- Pencil
- Water
- Watercolour
- Paintbrush
- Glass or something else circular

First of all take your glass or whatever circular object you want to draw around - could be sellotape or a compass if you have one even. Fill your page with circles like so

Once you have your circles what can you think of that would fit them? A porthole in a ship, an emoji - what things are circular or could fit in a circle? The possibilities are endless, get your paint ready and start creating!

There you have it your very own "Circle Cues"!
